HOTEL CHAMPLAIN LIFE.

Made a Festival by Troy Vocal

Society's Visit.

Hotel Champlain, N. Y., July 20 (Special).—With

the arrival of more than sixty members of the Troy Vocal Society last Tuesday the Hotel Chemplain

entered upon a three-day festival of music and joility. This visit was the society's seventeenth annual outing at the hotel, and, as usual, was

characterized by a good time all around.

A formal concert, complimentary to the hetel

management, arranged by the society for Tuesday night, was enjoyed not only by all the guests, but also by the army officers from the barracks and

by many persons from Plattsburg. The large hotel

lobby, where the concert was given, was filled to overflowing, and all the piazza chairs on both the lake and mountain sides of the building were occupied. After the concert the Grotto, a bower of flowers and palms, which is turned into fairyland at night by hundreds of tiny electric lights peepled out flowers the follows moved a most

ing out from among the foliage, proved a most popular spot. Here many informal parties, both

of the hotel guests and visitors from Plattsburg,

On Wednesday morning the hotel orchestra, which gives a piazza concert every morning, as well as rendering a programme of music every night in the office, was assisted by the vocal society. Later in the morning the members made up two beseball teams and played an interesting game on the Green Drive. In the afternoon they went in a body to the professional game at Clinton Park between the Plattsburg and Montpeller nines, and by their songs and jokes kept in a good humor both the winning and losing sides, as well as their adherents who packed the grandstand.

At the concert Tuesday night a collection was taken up for the benefit of the Chamutain Valley Hospital, and a substantial sum was realized.

Much Expected from San Francisco's New Mayor.

IBy Telegraph to The Tribune.]

San Francisco, July 20.-The selection of Da Edward Robinson Taylor as Mayor of San Francisco is the most hopeful sign of municipal reform since the conviction of ex-Mayor Schmitz The graft prosecution when the commercial bodies and labor unions refused to go into convention to name a Mayor 'ook the only course open, and Spreckels, Heney and Langdon began the search for a man of ability and standing who

would accept this trying position. They tendered the office to Dr. John Gallwey, one of the foremost physicians of the city, who did valuable service in relief work after the fire and to Ralph C. Harrison, former justice of the Supreme Court. Both men declined, and the prosecution then sought Dr. Taylor, who is eminent as a lawyer, physician and literary man. Dr. Taylor consulted with Chief Justice Beatty of the Supreme Court, and on Beatty's advice ac. cepted the offer. No man more independent or representative of labor and the professions could have been selected, as Taylor was a practical printer when a young man and has practised both law and medicine. He is sixty-eight year old, but is really in his prime, as he looks ten years younger than his age. He has fine executive ability, as he has shown as dean of Hastings Law College and acting head of Cooper Medical College

With a new and honest Board of Supervisor and with large commissions in the hands of competent men, there should be a great stimelation this fall to rebuilding and a restoration confidence among capitalists.

Officers of the United Railways declare that one out of every seven of the striking carmes is now employed. The strike is absolutely broken, and the cars would be as crowded as before May 1 were it not for fines imposed by many labor unions on members who ride on them. Several of the largest unions are agitating the question of revoking these fines, as they say it is unjust to their members to force them to walk long distances to and from work merely to give moral support to the striking carmen. There has been a large decrease in the number of labor union omnibuses run to accommodate workingmen, and it looks as though the unions were preparing to give up the losing fight,

It has been mainly due to these conditions that all the lighter amusements in the hotel and cottages have been cast aside for the time being.

The large number of yachts that have cast an done by their owners also, has considerable to do with the turn the amusements have taken. are many more yachts at the anchorage than there have been any time before this summer, and not a day goes by but there are luncheous and receptions on some of the vachts.

and daughter, is stopping at the Manhanse House. The other yachtsmen who are entertain ing extensively are: Frederick Gallitin, on his steam yacht Rivlera; Dr. T. L. Humphreys, on the steam yacht Watwaga; L. Anderson, on the steam schooner yacht Margaret, and G. H. Keim, on the yacht Woglinde.
C. B. Prettyman, of Philadelphia, who has been

staying at the Manhanset House for some time past, has engaged the Cartright cottage, on Shel-ter Island, for the summer. Mr. Prettyman ex-pects to do considerable short cruising this season on his schooner yacht Lavinan. For the last two weeks automobiling parties have

been adopting the somewhat novel idea of getting up three or four machine loads of tourists that arrive at the Manhanset House, and instead of having luncheon at the hotel, load their machines with good things and hie them to the woods, where they remain until late in the afternoon, and then make a tour of the Island, taking in all the shore reads, a distance of shout thirty-two miles shore roads, a distance of about thirty-two miles as attractive. They have been placed in fine condition and present a beautiful picture of summer sport. The little clubhouse is a delightful spot for luncheon. A new road has been cut through from Church street to the polo grounds, shortening the distance considerably. The usual tournament will doubtless come off in August, although no definite arrangements have yet been made.

The Lenox Horse Show Association met at the Curtis Hotel this week to consider plans for the annual exhibit in September. There was a feeling of discouragement among the officers based on a fear that sufficient entries could not be secured to make the show a success. A similar feeling existed a year ago, but proved to be groundless, as the exhibit last fall was one of the most successful ever given by the association. There is a strong feeling among the summer colonists of Berkshire in favor of holding the show as usual, as it is the great affair of the autumn season, and its abandonment would be widely regretted. Assurances of support are coming to the members of the executive committee, and another meeting will be held in a few days to determine the matter.

Senator W. Murray Crane, who had been at his Windsor estate, started on Wednesday for an automobile trip to the eastern part of the state. He was accompanied by Congressman George P. Lawrence and George Denton Dutton. TO SMOKE OR NOT TO SMOKE?

"Sir," the sad-faced man said to the heavy-set man, who was smoking a long, black cigar and reading a newspaper, "would you allow your boy to smoke cigarettes when he grows up?"

"I've never given the question a minute's thought," replied the other.

"What! Never pondered upon the effect upon the constitution, to say nothing of the mind, of your son to allow him to smoke the deadly things?"

"Never a thought; no, sir,"

"And will you allow him to drink?"

"I have never thought about it."

"Oh, can such things be? Are you letting your child grow up in the midst of temptation without speaking a fatherly word to"—

"Look here, sir! You mean well, I suppose, but let me tell you that I've been a confirmed bachelor for the last twenty years."

The sad-faced man vanished.—Tit-Bits.
